The advantages of having a solar system instead of a traditional gas generator are:

What is a 1kW off-grid Solar System?

A 1kw off grid solar kit is the most common choice when it comes to this power capacity. A system of this size is a great choice for DIY projects, an RV or a boat. Off-grid kits always have batteries that you can use at night or at times when panels don't produce enough.

What is a hybrid 1kW solar panel kit?

Hybrid 1kw solar panel kit has a hybrid inverter. The difference between it and a standard grid-tie inverter is that a hybrid one doesn't just shut down once a power outage in the grid occurs. Hybrid inverters support a battery or have a built-in energy storage. When the grid goes down, an inverter switches your appliances to battery support.

How many solar panels are in a 1kW solar kit?
