

3800W inverter price

What is a 3800 watt inverter generator?

The WEN 3,800 Watt Inverter Generator produces clean energy free of voltage spikes and drops without making all of the noise of a regular generator. Generate up to 3800 surge watts and 3400 rated watts of power.

How much power does a Wen 3800 watt inverter provide?

With a total harmonic distortion of less than 1.2 percent off from a true sine wave, the WEN 3800 Watt Inverter handles even the most sensitive electronics. Our TT-30R outlet provides up to 28 amps of quiet power for your RV while the included spark arrestor allows for use in all national parks and forests.

Does the Wen 3800w inverter generator have fuel shutoff?

The WEN 3800W Inverter Generator is also equipped with fuel shutoff. This feature turns off the flow of fuel, allowing the generator to use up the remaining fuel from the carburetor before automatically shutting down.

How quiet is a Wen 3800w generator?

Our 212cc 4-stroke air-cooled OHV engine operates at an extremely quiet 57 decibels at quarter load, about as quiet as a window air conditioner or the average conversation. This limits its invasiveness while hunting, camping, tailgating and restoring back-up power. The WEN 3800W Inverter Generator is also equipped with fuel shutoff.

Does a Wen inverter generator come with a warranty?

And because this is a WEN Product, your inverter generator comes backed by a 2-year warranty, a nationwide network of skilled service technicians and a friendly customer helpline. Remember when your generator powered your electronics safely and quietly?

How do I connect two Wen Inverter generators?

Easily link up two WEN inverter generators using a WEN GNA50i 50-Amp 6000-Watt Parallel Connection Kit (sold separately) in order to share wattage between multiple units. Low-oil and low-fuel automatic shutdown, indication lights, and overload protection safeguard both your generator and your electronics from damage.

The WEN 3800W Inverter Generator is also equipped with fuel shutoff. This feature turns off the flow of fuel, allowing the generator to use up the ...
