

55W solar panel

What is a 60W solar panel?

Its highly sensitive light source can charge your mobile power supply even under natural light or cloudy conditions. Providing a more stable output of up to 18V, the 60W solar panel is perfect for a variety of devices and applications. The solar panel is perfect for travelling or going on trips in the wilderness where portable power is needed.

How do I install the Atem power 55W solar panel?

Easy to Set up: The ATEM POWER 55w solar panel can be installed with adhesives and/or 4 metal reinforced mounting holes at each corner onto the bimini of your boat or even over a flexible awning. With preinstalled connectors, the flexible solar panel can directly connect to solar compatible devices.

What is a flexible solar panel?

This 55w flexible solar panel features more energy harvesting per square meter and less energy losses due to shading. Thus the flexible solar panel produces more power with an energy conversion efficiency of 22%. This flexible solar panel is flexible up to 245 degrees, meeting a wider range of applications than many other flexible solar panels.

Why should you choose a flexible solar panel?

Energy Optimization Tech: This 55w flexible solar panel features more energy harvesting per square meter and less energy losses due to shading. Thus the flexible solar panel produces more power with an energy conversion efficiency of 22%. For a 10-day camping trip, you can take your smartphone, laptop and full-sized DSLR with assurance.
