

Absolutely safe outdoor power supply

Are outdoor power strips safe?

Outdoor power strips have safety features to prevent them from shorting out due to overloading. Some outdoor power strips also function as surge protectors and have built-in fuses that cut off the flow of current when it exceeds the maximum wattage for a standard 15-amp outlet, which is 1,875 watts.

Are outdoor power strips waterproof?

Some outdoor power strips also function as surge protectors and have built-in fuses that cut off the flow of current when it exceeds the maximum wattage for a standard 15-amp outlet, which is 1,875 watts. Outdoor power strips designed for continuous outdoor use also have an IPX rating, which designates how water-resistant they are.

Are portable power stations a good choice?

Portable power stations can deliver power when you need it most, whether during power outages or just for an off-grid adventure. These handy electricity suppliers vary in size, output, and energy source, not to mention durability.

Are outdoor power strips Wi-Fi Ready?

Some outdoor power strips are Wi-Fi ready, allowing them to connect to your home network. These smart power strips can be controlled via a smartphone app, which is ideal for turning on and off holiday lighting displays.

How safe is the eigso power strip?

During testing, all three outlets continued to operate after prolonged exposure to sprayed water. Along with its water resistance, the EIGSO power strip also offers outstanding safety features, including a built-in circuit breaker that cuts off power if voltage exceeds 1,875 watts or 15 amps.

Are eigso power strips weatherproof?

EIGSO's weatherproof outdoor power strip is one of the most affordable models that still offers a high degree of weather resistance. With its IPX6 rating, it can withstand continuous rainfall thanks to drainage holes on the back of the power strip that allow water that finds its way into the sockets to drain out.
