

# American outdoor power supply manufacturer

Who makes custom power supplies?

Custom power supplies are our specialty! Aegis Power Systems, Inc. is a Proud USA Manufacturer of Commercial Off-The-Shelf Products (COTS). Aegis Power Systems, Inc. is a leading design and manufacture center for a variety of standard and custom power supplies. We supply advanced solutions for several markets and numerous applications.

Where are Acopian power supplies made?

All Acopian products are made in the USA. And we provide personal, unsurpassed customer service. Reliable. We focus on making power supplies that will last. You may find power supplies that are cheaper than ours, but you won't find any that are built as well or last as long.

What is a power supply?

While almost every electronic device contains an internal or external power supply--such as batteries in flashlights or embedded PSUs in computers--the industry typically uses the term to describe devices that convert existing electrical power into a form suitable for a specific use or application.

What is a DC power supply?

DC supplies are vital for powering electronics, LEDs, microcontrollers, communication devices, industrial sensors, and laboratory equipment. Many modern power supplies can convert between AC and DC (e.g., AC-DC or DC-AC inverters), or even regulate voltage and current to meet demanding application requirements.

What are the different types of power supplies?

Bench Power Supplies: Standalone units, often with displays and controls, widely used for electronics testing, circuit development, and educational laboratories. Open Frame Power Supplies: Minimal enclosure, designed for integration into larger systems or OEM equipment. These are ideal for embedded systems or custom machinery.

How do I choose the right power supply for my application?

Explore our comparison tools or reach out for an expert consultation. Securing the ideal power supply for your application depends not only on technical specifications but also on partnering with a trusted manufacturer or distributor. The right supplier will offer: Customization Options: For unique voltage, current, or form factor requirements.

Find leading power supply manufacturers and companies who are ISO 9100 certified and offer a wide range of custom & standard solutions to meet your needs.
