

Are there any energy storage battery manufacturers in Greece

Can a battery storage plant be built in Greece?

An increasing number of local and foreign companies are interested in building energy storage facilities in sun-loving Greece using battery technology. In fact, the Regulatory Authority for Energy (RAE) has been receiving applications for permits concerning battery storage plants.

Are battery storage plants getting a license?

In fact, the Regulatory Authority for Energy (RAE) has been receiving applications for permits concerning battery storage plants. In total, Balkan Green Energy News reported, applications to RAE reached 1.6 GW during October's licensing cycle. This is on top of projects with 23.5 GW in total that were already submitted by over 300 companies.

Which companies are investing in batteries in Larissa?

Enel Green Power is another large company that has already included batteries in two renewable energy projects in Larissa - 83.7 MW and 50 MW. "Although Greece did not take timely steps and the regulatory framework is delayed, we are proceeding with innovative investments in storage," according to its head for Europe Aristotelis Handavas.

Which companies have a 400 MW battery capacity?

Other companies include Magna Victoria, Melven, Mars BESS and MS Komotini, which have already received permits for a combined 400 MW of battery capacity in various large projects. MS Komotini is one of seven subsidiaries of Motor Oil that have submitted applications for over 300 MW of storage.
