What are solar inverter cabinets?

Solar Inverter Cabinets are manufactured using best grade material and advanced technology. The assortment of inverter cabinets are appreciated for robust construction, superb finish and longer service life. The cabinets are available in smooth and shiny finish and effectively store inverter machine to guard it against dust and other impacts.

What is a rectifier / inverter system cabinet?

Rectifier /inverter system cabinet of reduced height,populated with inverter modules,"EUE" electronic bypass switch and manual bypass,together with rectifier modules. You get the most economical solution and benefit in the long term from the direct link to BENNING as the manufacturer.

Why should you choose inverter cabinets?

The assortment of inverter cabinets are appreciated for robust construction, superb finish and longer service life. The cabinets are available in smooth and shiny finish and effectively store inverter machine to guard it against dust and other impacts. Clients can avail these cabinets in diverse sizes, designs and shapes at competitive prices.

How do I switch the load to the inverter output?

There is the option of switching the load to the bypass mains or to the inverter output, thanks to the manual bypass which is also housed in a 1/5, 19" rack module. System cabinets are available in a range of different sizes, coming with the required number of racks for inverters and for rectifiers.

What types of inverter modules are available?

The inverter modules are available for various input and output voltages,and the output power varies according to the voltage combination. INVERTRONIC compact inverter systems and their racks,comprising hot-swapping 1/5 19" rack modules with a range of 3 heights,are characterised by their modular architecture.
