

Botswana Communication Small Base Station

What telecommunications are available in Botswana?

In Botswana, newspapers, radio, television, fixed and mobile telephones, and the Internet are the available telecommunications. Besides the government-owned newspaper and national radio network, there are six weekly newspapers in the country. Foreign publications are sold without restriction.

Does Botswana restrict over the top (OTT) communication services?

Botswana does not restrict over the top (OTT) communication services like voice over internet protocol (VOIP). The Ministry of Communications, Knowledge, and Technology is the authority that issues licenses for telecom services including mobile telephones, data communications, payphones, sale of telecommunications equipment, and internet services.

When did Botswana start broadcasting?

Botswana Television (BTV), the country's first national television station and a government-owned broadcaster, began broadcasting in July 2000. It initially offered three hours of programming on weekdays and five on weekends in Setswana and English, featuring news, entertainment, and sports, with plans to produce 60% of its programming locally.

Does the US export telecommunication equipment to Botswana?

U.S. exports of telecommunication equipment to Botswana have increased significantly over the last several years due to a \$20 million investment from a satellite communications provider. This figure does not reflect those U.S. products exported to South Africa and imported to Botswana by South African distributors.

How is Botswana developing?

Botswana is participating in regional development efforts and expanding its telecommunications infrastructure. This includes the development of a fully digital system with fiber-optic cables linking the major population centers in the east. Additionally, there is a system of open-wire lines, microwave radio relays links, and radiotelephone communication stations (2011).

Does Botswana have private newspapers?

Botswana has an active, independent press with six weekly newspapers. In addition to the government-owned newspaper and national radio network, these private newspapers are available. Foreign publications are sold without restriction in Botswana. Two privately owned radio stations began operations in 1999.
