

Brand new inverter for sale in Abkhazia

What type of Inverter should I buy?

This equipment is ideal for installation in residential areas, is highly efficient, reliable and durable. Inverters with single-phase and three-phase alternation current output of 220 and 380 V are readily available in our online store. Three-phase models can be used in homes or industrial sites.

Should I buy an off grid inverter?

When purchasing an off grid inverter, you have to make sure it suits the size of your solar panel system. For example, if your solar panel array has a combined power of 5kW then a 5,000 W inverter should be just right for it. Consult with the manufacturer when in doubt and read the guidelines.

What is a good battery charger for an off-grid inverter?

Battery charger output. Many off-grid inverters have a battery charger to recharge the batteries in winter with a backup generator. A good off-grid inverter will have a battery charger in the range of 50-100 amps DC. Temperature range. Inverters are sensitive to weather extremes.
