

Bulgaria's Ministry of Energy is currently running two tenders aiming to commission 1,425 MW of solar and wind generation capacity coupled with 350 MW of behind-the-meter ...

To support Bulgaria's transition to a more sustainable and diversified energy mix, IFC is financing a 225-megawatt (MW) direct current solar photovoltaic (PV) project developed ...

Bulgaria has selected 82 winning energy storage projects for a share of BGN 1.15 billion (EUR588 million) in financial support.

Bulgaria's energy storage programme oversubscribed 4.3 times Bulgaria's Ministry of Energy has received applications for EUR2.55 billion in stand-alone energy storage projects ...

Bulgaria is currently spending around EUR0.5bn to upgrade and expand its power grid, as part of the Carmen II project which the EU executive is looking to support with EU funding. Additionally, in ...

Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has ...

In February, state-owned utility and power generation firm NEK announced plans to deploy BESS totalling nearly 300MWh at five of its ...

The Gabare solar PV project will be located in the northwest of Bulgaria and will be built to allow the potential co-location of a battery energy ...

Integrated solar and storage systems are emerging as a key solution to address grid fluctuations and enhance the efficiency of renewable energy utilization. Known as the "Country ...

Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively ...

Franck Neel, OMV Petrom Executive Board Member responsible for Gas & Power division, said: "By investing in one of the largest photovoltaic ...

Developers of 82 standalone battery storage projects in Bulgaria, for an overall 9.71 GWh in capacity, got approval for EUR 587 million in subsidies from the Ministry of ...

Bulgaria and Romania grant Recovery and Resilience funding to gigawatts of energy storage-Vilion-Bulgaria supports 3.1GW of renewables and 1.1GW of storage The ...

storage is hindering Bulgaria in the development of an energy storage market. Furthermore, Bulgaria's energy legislation and grid codes have been historically written with thermal plants ...

Bulgaria's Ministry of Energy has approved EUR588 million in funding for 82 standalone battery energy storage projects, totaling nearly 9.7GWh of usable capacity. The ...

Battery energy storage technology improves the balancing ability of hydropower plants and pumped storage systems, which typically take minutes to reach full capacity. ...

Transformation of AES Galabovo into a large-scale energy storage facility using proven technology implemented in concentrated solar power plants (CSP) using molten salts

The connection to the grid of an energy storage facility constructed by an energy producer follows the approach of power generation facilities and ...

The selected projects will deliver a total usable battery energy storage system (BESS) capacity of 9,712.89 MWh, the Ministry of Energy said on April 17, more than three ...

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, integrated with solar photovoltaic power generation, ...

In February, state-owned utility and power generation firm NEK announced plans to deploy BESS totalling nearly 300MWh at five of its hydropower sites across Bulgaria.

RESTORE is part of Bulgaria's National Recovery and Resilience Plan (NRRP), which supports the country's clean energy transition by ...

Bulgaria's Ministry of Energy has launched two tenders to add 1,425MW of renewable power generation to the grid and 350MW of battery energy storage system (BESS) ...

The first group had a contracted power generation capacity of 435 MW and energy storage capacity of 176 MW, while the second group had a power generation capacity of 2.66 ...

The Bulgarian Ministry of Energy began accepting applications yesterday (21 August) in tenders for 3,000MWh of energy storage capacity.

RESTORE is part of Bulgaria's National Recovery and Resilience Plan (NRRP), which supports the country's

clean energy transition by increasing renewable integration and ...

SERMATEC, a pioneer in renewable energy solutions, has launched an innovative 5.1MW/17.8MWh commercial and industrial energy storage system in Bulgaria. This ...
