

What is inset cabinet construction?

Inset cabinet construction features doors and drawers fitted inside the face frame openings of the cabinet box, resulting in a sleeker look and a bit more interior space. The door and drawer fronts overlay the side, top, and bottom of the cabinet box.

Can you build a custom cabinet with a nail gun?

These cabinets can be assembled rapidly with a nail gun. PolyBoard is a parametric modeling software that is ideal for custom cabinet construction. Building a cabinet with PolyBoard accommodates countless types of cabinets that can be easily modified for different projects.

How are cabinet joints made?

These joints are usually manufactured in cabinets with CNC machining. A cabinet built with overpassing base and top panels, utilising CAM lock fittings, is a common joinery construction used for a fast and strong cabinet assembly. Again, this method of production is most efficiently completed with a CNC set-up. The pros and cons are as follows.

What is framed cabinet construction?

Framed cabinet construction refers to the use of a stiles and rails (face frame) surrounding the cabinet box, which are attached to the sides. In typical cabinet box construction, doors and drawer fronts overlay the face frame. Frameless, or full access, cabinet construction does not have a face frame at the front of the cabinet box.

What are the parts of a kitchen cabinet?

Common parts include: Hinges: These attach the doors to the cabinet. Some are visible, and others are hidden. Drawer slides: Lets drawers open and close. Side mount slides are easier to install, while under-mount slides are smoother and quieter. Knobs and pulls: These make it easy to open doors and drawers.

Can a cabinet be made with butt joints & fixed with nails?

Using a cabinet made with butt joints and fixed with nails is an efficient method when not using a CNC for production. It produces the fastest results without the need of manufacturing any joints with additional tools such as hand routers or drilling CAM fittings with jigs.
