

Columbia Universal Portable Energy Storage Power Supply

Can a portable power station be used as an uninterruptible power supply?

Some portable power station models can also be used as an uninterruptible power supply. In this mode, you'd keep your electronics plugged all the time with the portable power station providing pass-through power, and the battery switches over in the event of a power outage, keeping your electronics running without a blip.

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

What's the difference between a portable power station and a UPS?

Here's a more detailed breakdown of the options. Both a portable power station and a UPS will provide battery power to back up electronics. In that sense, their functionality is very similar. A UPS, however, is designed to kick on automatically (without interruption) to prevent damage during a power outage or surge.

Which power supply is best for a home generator?

Outside of gas-powered home generators, two of the most popular options are portable power stations and uninterruptible power supplies (commonly known as a UPS). Both are large batteries at their core, but they have different capabilities. A portable power supply might pack more power, but that comes at a price.

What is the power output of a portable power station?

Power output of a portable power station refers to the maximum amount of energy the station delivers to the attached devices. Power output ratings are available in terms of wattage. How many watts a device will deliver explains how much power it can produce. The more watts a device can produce, the larger the electrical component it can run.

What is a portable power station?

A portable power station is basically a large battery that you can carry around and plug your devices into. Portability is the main feature here: They're light enough to move around your house and take on a camping trip, and come with lots of outlets built in, so you can connect appliances or gadgets.
