

Congo Kinshasa power base station

What are the power plug sockets in Congo-Kinshasa?

In Congo-Kinshasa, the power plug sockets are of types C, D, and E. When living in the United States of America, you need a power plug adapter for sockets of types C, D, and E.

What is the power sector in DR Congo?

Revised in September 2023, this map provides a detailed view of the power sector in DR Congo. The locations of power generation facilities that are operating, under construction or planned are shown by type - including liquid fuels, natural gas, coal, hybrid, hydroelectricity, solar PV and methane.

How much will Grand Inga cost the DRC?

The projected \$80 billion cost of completing the Grand Inga plan remains a huge barrier for the DRC, which is one of the world's poorest countries. South Africa, Nigeria, Guinea and Angola have expressed formal interest in purchasing power from Grand Inga, tying the project to transnational energy security.
