

Did a malfunction at Cuba's biggest thermoelectric plant cause a power outage?

The Ministry of Energy and Mines said on social platform X the latest outage could be tied to a malfunction at one of Cuba's biggest thermoelectric plants. Argelio Abad, the ministry's vice minister, said on state TV the grid shut down after an apparently erroneous message warning of overheating disconnected the thermoelectric plant.

How does a power outage affect the Internet in Cuba?

The power outages also affect the internet, of which widespread access in Cuba is relatively recent, and which has contributed to expanding the scale of discontent and to the organization of some protests.

Will Cuba's power be restored gradually?

Prime Minister Manuel Marrero made an appearance at Cuba's state-run power company and asked Cubans for their trust as he said on state TV that electricity would be restored gradually. Some Cubans, like 65-year-old Mayt#233; Garc#237;a, believed they would be without power for a couple of days.
