

In Europe, the capacity of renewable energy sources is growing very rapidly, while traditional power plants are slowly being decommissioned. ...

1 day ago; DTEK has launched the largest battery storage facility in eastern Europe to bolster Ukraine's energy system ahead of expected mass Russian attacks on infrastructure this ...

One of Rimac's slides shown during its presentation at Energy Storage Summit Central Eastern Europe (CEE). Image: Cameron Murray / ...

Speakers at LSSCEE 2024 discussed key topics for the Eastern European solar sector, including storage, private investment and risk management

Expected growth of the utility-scale battery energy storage market in six key countries in Central and Eastern Europe by 2030.

Speakers at LSSCEE 2024 discussed key topics for the Eastern European solar sector, including storage, private investment and risk ...

The Energy Storage Summit Central Eastern Europe 2025 will take place in Warsaw from September 23-24, 2025. Organized by Informa Markets, this event will gather ...

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage into regional ...

Block Energy plc has successfully completed the first CO₂ mineralization pilot project in Eastern Europe, marking a major step forward for carbon capture and storage (CCS) ...

Summary: Eastern Europe is rapidly adopting advanced energy storage solutions to support renewable integration and grid stability. This article explores market drivers, key technologies, ...

The Central and Eastern European (CEE) region is undergoing a critical shift towards renewable energy, driven by both the ambitious EU climate targets (net-zero ...

Poland is set to lead Eastern Europe's battery storage market, with 9GW offered grid connections and 16GW in the capacity auctions.

This event will bring together key stakeholders from across the region to explore the latest trends in energy

storage, with a focus on the ...

Flexibility and energy storage will be key to the grid of the future in Central Eastern Europe (CEE), speakers at an industry event said today.

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage ...

This partnership not only injects new momentum into Eastern Europe's clean energy shift but also strengthens the foundation of Sino-European green collaboration.

It offers near real-time data on the deployment of storage facilities across Europe, including an interactive dashboard and map, and identifies all ...

It offers near real-time data on the deployment of storage facilities across Europe, including an interactive dashboard and map, and identifies all the technologies, from battery ...

The Energy Storage Summit Central Eastern Europe is set to return in September 2025 for its third edition, focusing on regional markets and the ...

The Central and Eastern European (CEE) region is undergoing a critical shift towards renewable energy, driven by both the ambitious EU ...

2 days ago· Of the Eastern European countries involved, Poland has allocated 58% of its resources to the development of renewable sources of energy (the highest rate overall), ...

In Europe, the capacity of renewable energy sources is growing very rapidly, while traditional power plants are slowly being decommissioned. That's creating a unique new ...

At a time when Europe is redefining its energy architecture and Ukraine continues to fight for energy security in the face of Russian ...

A new interactive platform--the European Energy Storage Inventory --has been launched to provide near real-time insights into energy storage deployment across the EU, ...

Environmental Engineering Firm, specialized in Carbon Offsets and a Strategic Partner in the Field of Energetic Sector, Renewable Resources and Energy Storage Solutions. Carbon ...
