

# Germany's latest energy storage project

What's going on with Germany's new battery storage projects?

(Credit: Monika from Pixabay) French firm TotalEnergies has taken investment decisions on six new battery storage projects in Germany, with nearly EUR160m earmarked for their development. The projects will be developed by Kyon Energy, a subsidiary acquired in 2024. Once operational, the six facilities will have a combined storage capacity of 221MW.

Who developed the new battery storage projects in Germany?

The projects were developed by TotalEnergies affiliate Kyon Energy. Credit: JeanLucIchard/Shutterstock. TotalEnergies plans to invest EUR160m (\$172.8m) in six new battery storage projects in Germany, totalling 221MW of capacity. The projects have been developed by TotalEnergies affiliate Kyon Energy.

Will Germany's new battery storage capacity boost its power infrastructure?

The added storage capacity will further bolster the reliability of Germany's power infrastructure. (Credit: Monika from Pixabay) French firm TotalEnergies has taken investment decisions on six new battery storage projects in Germany, with nearly EUR160m earmarked for their development.

When will TotalEnergies start building a battery power plant in Germany?

Construction began at the end of 2024, and commissioning is planned for early 2026. The launch of these projects marks a major milestone in TotalEnergies' development of battery energy storage capacity in Germany, where the Company has operations in the production, trading, aggregation and commercialization of clean firm power.

Why did TotalEnergies develop a new storage capacity in Germany?

The development is a key step in TotalEnergies' efforts to enhance the flexibility of Germany's power system. The new storage capacity will help mitigate congestion and provide the necessary flexibility to support the rapid expansion of the country's renewable energy sector.

Does TotalEnergies invest in battery storage projects in Germany?

TotalEnergies, on the occasion of Patrick Pouyann's participation in the Europe 2025 conference in Berlin, and in connection with the company's integrated development in Germany's electricity sector, revealed investment decisions for 6 battery storage projects with 221 MW of new storage capacity and an investment outlay of EUR160mn.
