

Greek formal energy storage power supply company

Can a battery storage plant be built in Greece?

An increasing number of local and foreign companies are interested in building energy storage facilities in sun-loving Greece using battery technology. In fact, the Regulatory Authority for Energy (RAE) has been receiving applications for permits concerning battery storage plants.

Does Sungrow offer a battery energy storage system in Greece?

Athens, Greece, December 16th 2024 - Sungrow, the global leading PV inverter and energy storage system provider, is proud to announce the strategic partnership with KTISTOR Energy for the deployment of the innovative PowerTitan 2.0 liquid-cooled Battery Energy Storage System (BESS) across several key projects in Greece.

Why is Greece focusing on energy storage?

Greece has been actively focusing on energy storage since the emergence of the RES "boom" in 2020. The country recognised the pivotal role of energy storage in the energy transition and emphasised its importance in the first iteration of the country's National Energy and Climate Plan in 2019.
