

Honduras Wholesale Outdoor Power Supply Market

What type of power system does Honduras use?

With an installed generation capacity of 1,568 MW (2007), Honduras relies on a thermal-based power system (accounting for nearly two-thirds of its total installed capacity), which is very vulnerable to high and volatile international oil prices. [full citation needed] The generation mix is as follows:

Are there publicly listed companies in Honduras?

There are no publicly listed Honduran companies and Honduran firms rarely publish information about their officers, sales, or financial information. Most companies are sole proprietorships and partnerships, and business generally is conducted based on personal reputation and contacts.

What is the principal-agent relationship in Honduras?

The principal-agent relationship in Honduras is governed by the civil and commercial code, Decree Law No. 549, Official Register (La Gaceta) No. 22366, of December 7, 1977.
