

How to replace the battery cabinet in Switzerland

How do you replace a Swiss Army battery?

If there is a clip, carefully remove or loosen it. Once the Swiss Army battery is accessible, insert your tool of choice into the opening. Slowly ease the old battery from the casing. Unpackage your new battery and replace it in the same spot. Gently press the new battery into position, and reclip if necessary.

How do you replace the battery on a Swiss Army pocket watch?

To replace the battery on a Swiss Army pocket watch, first rotate the watch so that it is positioned face down on a flat surface. Then, identify the case back type.

How do I replace the battery on my Victorinox Swiss army watch?

If there are no authorized service centers in your area, refer to the Victorinox Swiss Army customer service link for instructions on how to ship your watch to an authorized service center for battery replacement. Request battery replacement. Collect your watch after the battery has been replaced. Lay the watch face down on a flat rubber surface.

How do you change the battery on a Wenger Swiss watch?

To change the battery on a Wenger Swiss watch, you'll need to open the watch case back. You can use a watch case tool or case wrench, but with care and focus, you can also use pliers, a drawing compass, or even the right thumbtacks. Lay the Wenger Swiss watch face down on a protected, sturdy surface, such as a rubber mat, to eliminate slippage while working.

How do you open a Swiss army watch battery?

Inside certain Swiss Army watches, there is a clip over the battery that holds the cell in place. The clip may be screwed or pinned over the top. If there is a clip, carefully remove or loosen it. Once the Swiss Army battery is accessible, insert your tool of choice into the opening.

How do you remove the round watch battery?

Inside of the case back, use a flat head screwdriver and your fingernail to gently pry up and remove the round watch battery.
