

Implementation plan for new energy storage

Does the energy storage strategic plan address new policy actions?

This SRM does not address new policy actions, nor does it specify budgets and resources for future activities. This Energy Storage SRM responds to the Energy Storage Strategic Plan periodic update requirement of the Better Energy Storage Technology (BEST) section of the Energy Policy Act of 2020 (42 U.S.C. § 17232 (b) (5)).

What are the changes to planning legislation for energy storage projects?

The changes to planning legislation for larger energy storage projects were first announced back in October 2019 to allow planning applications to be determined without going through the Nationally Significant Infrastructure Project (NSIP) process.

What does the 2024 energy storage order mean for NYSERDA?

The 2024 Energy Storage Order established a statewide goal of deploying 3,000 MW of new bulk energy storage by 2030 and required that NYSERDA submit a draft Implementation Plan that outlines the methods and budget that could be used to achieve the bulk energy storage deployment target.

How long has the PSC been working on an energy storage plan?

Efforts towards a finalized implementation plan have been ongoing since June 2024, when Governor Hochul first announced that the PSC had approved an Energy Storage Roadmap in furtherance of the state's goal to achieve six gigawatts ("GWs") of energy storage by 2030.

Why did the PSC approve energy storage programs in 2024?

The PSC's subsequent 2024 Energy Storage Order approved the energy storage programs described in the Roadmap in order to achieve a total of 4,700 megawatts ("MWs") of incremental installed capacity of energy storage spanning the bulk, retail, and residential sectors.

Why is energy storage important in New York?

Energy storage plays a critical role in supporting New York's electric grid by enabling the integration of large quantities of renewable energy, helping to smooth generation, reduce curtailment, and shift renewable generation to where and when it is needed most.

The Department of Energy's (DOE) Energy Storage Strategy and Roadmap (SRM) represents a significantly expanded strategic revision on the original ESGC 2020 Roadmap.

INTRODUCTION This Implementation Plan (hereafter the "2024-2030 Residential and Retail Storage Implementation Plan", or the "Plan") sets forth the program goals and implementation ...

Implementation plan for new energy storage

This document identifies energy storage as a key element of the decarbonisation of the sector and support energy security. It promotes the high-quality and large-scale development of new ...

Alliance for Clean Energy New York ACE NY generally supports the underlying components of NYSERDA's Bulk Energy Implementation Plan (IP) and more specifically ...

Implementation Plan for the Development of New Energy Storage in the 14th Five Year Plan New energy storage is an important technology and infrastructure for building a new type of power ...

In 2022, the "Implementation Plan for the Development of New Energy Storage during the 14th Five-Year Plan Period" jointly issued by the National Development and Reform ...

In June 2024, Governor Hochul announced that the Commission had approved a new Energy Storage Roadmap for the state to achieve a nation-leading six gigawatts of ...

The Order approves the 6 GW Energy Storage Roadmap (often referred to as "Roadmap 2.0"), which lays out a comprehensive set of programs and initiatives to unlock the rapid deployment ...

The 2024 Energy Storage Order established a statewide goal of deploying 3,000 MW of new bulk energy storage by 2030 and required that ...

The Implementation Plan provides an operating framework for the program, with additional details to be provided in Bulk Energy Storage program solicitations.

ington expands its renewable energy capacity. Energy storage systems are technologies that store energy for later use, helping to balance supply and demand in power grids. These ...

Case 18-E-0130 - In the Matter of Energy Storage Deployment Program. To submit comments, fill out the Case 18-E-0130 comment form. Read the Proposal

On January 29, 2022, the National Development and Reform Commission and the National Energy Administration of China issued the "Implementation Plan for the Development of New ...

Alliance for Clean Energy New York ACE NY generally supports the underlying components of NYSERDA's Bulk Energy Implementation Plan (IP) and more specifically supports: Use of the ...

The Department of Energy's (DOE) Energy Storage Strategy and Roadmap (SRM) represents a significantly expanded strategic revision on the original ...

Supports the Climate Leadership and Community Protection Act Goals ALBANY -- The New York State

Implementation plan for new energy storage

Public Service Commission (Commission) today approved the retail ...

The New York State Public Service Commission has approved the state's retail and residential energy storage implementation plan, a significant step in its effort to reach 6 ...

The 14th Five-year Plan is an important new window for the development of the energy storage industry, in which energy storage will ...

(III) The Implementation Plan is the overall deployment to promote the large-scale, industrialized, and market-oriented development of new energy storage during the 14th Five ...

The New York State Public Service Commission has approved ...

The topics being addressed by the Joint Utilities include coordinated grid planning, advanced forecasting, hosting capacity, interconnection⁴ and integration of DERs, the IEDR ...

The 2024 Energy Storage Order established a statewide goal of deploying 3,000 MW of new bulk energy storage by 2030 and required that NYSERDA submit a draft ...

Reference address: Interpretation of the "14th Five-Year Plan" New Energy Storage Development Implementation Plan Disclaimer: The content and accompanying ...

14th Five-Year Plan for New Energy Storage Development Implementation Plan China (2022) This policy sets out a plan to develop China's energy storage capacity.

INTRODUCTION This Implementation Plan (the "Plan") sets forth the program goals and implementation strategies for the Energy Storage Market Acceleration Bridge ...

Key Component of the State's Storage Roadmap that Will Reduce Future Electric System Costs by Nearly \$2 Billion ALBANY -- The New York State Public Service Commission ...
