

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction ...

A partnership between Irish renewable energy group NTR and London-based Legal & General (L& G) has acquired a 211-megawatt (MW) hybrid solar and battery storage ...

Power Capital Renewable Energy selects Voltalia to build and operate 230-megawatt solar power plants. Based in Ireland, Power Capital is an independent electricity ...

On March 25th, 2025, Ireland reached a new record for grid-scale Solar power, generating over 750 Megawatts (MW) at one point, 18 MW more than the previous peak set in July 2024. This ...

Today, ESB and BnM welcomed Darragh O'Brien TD, Minister for Climate, Environment and Energy, to County Kildare for the official launch of Timahoe North solar farm. ...

Developing a 5 MW solar power plant in Ireland can cost around EUR6 million. The cost also includes factors such as land acquisition, where ...

The latest RESS 4 auction concluded only this month, with awards given to 959.84MW worth of solar projects. Below is a list of some of the largest solar farms in Ireland ...

A partnership between Irish renewable energy group NTR and ...

The L& G NTR Clean Power (Europe) Fund has acquired a solar and battery energy storage portfolio totalling over 211 MW in Ireland from Irish ...

Voltalia has secured a contract from Ørsted to handle the engineering, procurement, and construction of a 128 MW solar power facility. The solar project is situated in ...

Semi-state owned climate company BnM and Ireland's electricity networks manager ESB say the first project, which has been fully operational since early this year, can ...

Developed by Statkraft, this substantial project boasts a capacity of 175 megawatts (MW). The developers indicate the project is still under ...

In the fourth round the Irish Renewable Energy Support Scheme (RESS 4), approximately 1,334 MW of onshore renewable electricity won support.

Ireland Megawatt Solar Power Project

The project is the first of four major solar farms to be co-developed by the ESB and BnM as part of a wider 500 megawatt solar power partnership agreement signed in 2017.

Developed by Statkraft, this substantial project boasts a capacity of 175 megawatts (MW). The developers indicate the project is still under construction, and upon completion, it ...

Construction work on Ballinknockane Solar Power Plant 79 MW located in Munster, Ireland commenced in Q4 2024, after the project was announced in Q2 2022. ...

The L& G NTR Clean Power (Europe) Fund ("the Fund ") today announces the acquisition of Project Monvallet, a Ready-to-Build (" RtB ") ...

The L& G NTR Clean Power (Europe) Fund ("the Fund ") today announces the acquisition of Project Monvallet, a Ready-to-Build (" RtB ") solar and Battery Energy Storage ...

The Legal & General (L& G) NTR Clean Power Fund has acquired a ready-to-build solar and battery energy storage system (BESS) portfolio from Strategic Power Projects ...

Ireland's national electricity grid experienced a record-breaking March for solar power, with renewable sources contributing to 39% of the country's electricity supply, ...

Please note that these are only 20 of the numerous solar power projects which are currently taking place across Ireland. While some are not ...

The L& G NTR Clean Power (Europe) Fund has acquired a solar and battery energy storage portfolio totalling over 211 MW in Ireland from Irish developer Strategic Power ...

With this new service contract, Volitalia illustrates its competitiveness as a builder of solar power plants." This is an addition to Volitalia's Irish footprint, with over 540 MW of solar ...

Ireland has officially opened the 108 megawatt-peak (MWp) Timahoe North solar farm in County Kildare, marking the first completed project under a joint solar development ...

Ørsted has announced the acquisition of 160-MW capacity Irish solar project Garrenleen from RE conglomerate Terra Solar. It's the second solar project of Ørsted in ...

Please note that these are only 20 of the numerous solar power projects which are currently taking place across Ireland. While some are not yet physically underway, the main ...

PCRE, which operates this solar farm in County Wexford, Ireland, supplies power through agreements with

Ireland Megawatt Solar Power Project

Microsoft and Google. Image: PCRE

The contracts cover the construction of the 43.7-megawatt Carriglong solar power plant and the 49.2-megawatt Clashwilliam solar power plant. These projects mark the fourth ...

Power Capital Renewable Energy, in partnership with AIB, Bank of Ireland and Societe Generale, has successfully completed a project finance round to develop ...
