

Lithium battery energy storage project halted

Two battery manufacturing projects were cancelled in the first week of Trump's presidency. Further challenges emerged in early February 2025 when KORE Power ...

The Moss Landing Energy Storage Facility in California, which became operational in December 2020, has gone offline after overheating. The system features lithium-ion batteries from LG ...

The 275-megawatt lithium battery storage facility would be located near the Glen Head and Glenwood Landing elementary schools and local ...

LG Energy Solution has issued a recall for some of its RESU range. The ACCC has issued a recall notice for a series of batteries in LG Chem's recently rebranded energy storage ...

Spanish renewable energy company Rolwind has obtained an environmental permit for its 200-MW standalone battery energy storage system (BESS) project in Spain, the company ...

2 days ago#0183; Following raids by US immigration authorities a few days ago at a car battery factory under construction by Hyundai and LG Energy Solution and at Hyundai's electric car plant in ...

13 hours ago#0183; The utility currently has nearly 1,300 MW of energy storage currently supporting its grid, which includes 1,100 MW of battery storage-- spanning eight facilities-- and 200 MW of ...

As the US electric vehicle battery industry matures, less viable projects are starting to fall by the wayside. Over the past few weeks, three ...

In Europe, 11 out of 16 planned battery factories have been delayed or canceled as EV demand has waned and manufacturers are ...

Here is a look at some of this week's renewable energy news, including results of a feasibility study on a direct lithium extraction project in Arkansas.

Clean energy manufacturers canceled, closed or downsized nearly \$8 billion in projects in the first quarter of 2025, as the Trump administration's rollback of support for the ...

A 700MWh vanadium flow battery that came online in China this year. Image: Rongke Power via LinkedIn. Following similar pieces the last two years, we look at the biggest ...

Lithium battery energy storage project halted

After residents voiced their concerns about the construction of a new battery energy storage site (BESS) in a residential section of Manor ...

But even before President Donald Trump's sweeping tariffs on imports, many of those projects were being canceled -- leaving thousands of ...

- A California lawmaker is calling for an end to the Morro Bay battery energy project following a fire at a lithium battery storage facility in Moss Landing, operated by Texas ...

As the US electric vehicle battery industry matures, less viable projects are starting to fall by the wayside. Over the past few weeks, three start-ups canceled plans for US battery ...

Clean energy manufacturers canceled, closed or downsized nearly \$8 billion in projects in the first quarter of 2025, as the Trump administration's ...

Two battery manufacturing projects were cancelled in the first week of Trump's presidency. Further challenges emerged in early February 2025 ...

A proposed emergency ordinance that would have placed a six-month moratorium on large-scale battery energy storage systems (BESS) in La Conner has been tabled by the ...

Council Member Robert Holden is raising concerns over the proposed construction of a large-scale lithium-ion battery energy storage ...

But even before President Donald Trump's sweeping tariffs on imports, many of those projects were being canceled -- leaving thousands of jobs and the shift to clean energy ...

Two high-profile battery manufacturing projects have been canceled, reflecting the challenges two companies face in the competitive and capital-intensive clean energy sector.

Many of the battery gigafactory projects in Europe are likely to see delays, analysts say, while CATL announced a second facility this week.

Jupiter Power ends plans for a large battery storage plant in Glenwood Landing, citing permit challenges and eliciting cheers from the ...

The proposed Compass Energy Storage Project would be composed of lithium-iron phosphate batteries, or similar technology batteries, inverters, medium-voltage transformers, a ...

Some Santa Cruz County activists oppose a proposed lithium battery storage site at 90 Minto Road near Pinto

Lithium battery energy storage project halted

Lake outside Watsonville.

Around three dozen battery storage projects on Long Island remain under review even as wind energy is facing federal headwinds.

In Europe, 11 out of 16 planned battery factories have been delayed or canceled as EV demand has waned and manufacturers are struggling to master the technology. As a ...

The halted project--a 250MW lithium-ion battery system in Sardinia--wasn't just about storing electrons. It symbolized Italy's race to meet EU's 2030 renewable targets.

Two high-profile battery manufacturing projects have been canceled, reflecting the challenges two companies face in the competitive and ...
