How will Lithuania support energy storage projects?

Image: Energy Cells via LinkedIn. Lithuania can move ahead with a scheme to provide EUR180 million (US\$200 million) in grants to energy storage projects after it was approved by the EU. The programme will provide direct grants for the construction of the projects, with a target to support at least 1.2GWh of energy storage projects.

Which power plant provides energy storage in Lithuania?

Kruonis Pumped Storage Plant provides energy storage, averaging electrical demand throughout the day. The pumped storage plant has a capacity of 900 MW (4 units, 225 MW each). Kaunas Hydroelectric Power Plant has 100 MW of capacity and supplies about 3% of the electrical demand in Lithuania.

When will energy storage funding be available?

The money will be available to all energy storage technologies that are directly connected to the transmission network, and winning projects will be selected through a competitive bidding process. Aid will be granted no later than 31 December, 2025.

The four battery energy storage systems (BESS), 50MW/50MWh each, have been handed over by Fluence and are now providing services to Litgrid, the transmission system ...

Topband RS-R51100 51.2V 100Ah 5.12KWh (Home ESS) set of cables between the battery and the inverter 82,80 EUR In Stock Lithuania -5EUR on cart\*

E-energija Group has started building Lithuania's largest battery energy storage system (BESS), known as the Vilnius BESS, with a capacity of 120MWh. Located near Vilnius, ...

The Lithuanian program offers capex grants of up to 30% for battery energy storage system (BESS) projects ranging in size from 15MW to 150MW. The primary focus is to enable ...

Lithuania is also encouraging households to increase their energy independence with subsidies for lithium-based energy storage systems. Launched in April 2025, this program ...

Large battery storage projects in Estonia and Latvia have moved forward as the Baltic energy system prepares to decouple from Russia in 2025.

Up to 30% of eligible project costs can be subsidized, with funding capped at EUR150,000 per MWh. Eligible applicants include legal entities, ...
