What is EDM doing in Mozambique?

EDM and Mozambique support the development of renewable energy projects, having launched public tenders for solar and wind projects, the country is also exploring battery storage solutions. The largest power generation plant in the country is the Cahora Bassa hydro dam, operated by the government owned Hidroelétrica de Cahora Bassa (HCB).

Why is Mozambique a major energy exporter?

Mozambique is a net exporter of energy to countries in the Southern African Power Pool (SAPP) - South Africa being the largest importer. The government views energy exports as a key driver of the Mozambican economy, having passed a new electricity law that simplifies permitting and encourages IPPs activities.

Why is Mozambique partnering with EDF?

This consortium is being led by French company EDF. Mozambique has frequent power shortages mainly due to extreme weather events, forcing EDM to resort to expensive emergency power solutions. This creates another opportunity for U.S. companies providing emergency and backup generation solutions.
