

Zealand's energy security over the short, medium, and long term. This white paper presents the key findings of that analysis, including considering a long list of solutions for flex.

Ekus Energy has acquired a 300 MW battery energy storage project in New Zealand's Waikato region, marking its entry into the country. The ...

Beca is transforming energy storage in New Zealand with the Glenbrook BESS project, which will power several thousands of homes and support the energy ...

The country's government is known to be considering the development of large-scale pumped hydro energy storage (PHES) facilities to provide long-duration energy storage ...

Infratec rooftop solar-plus-battery project in the Cook Islands, commissioned in early 2020. Image: Infratec. Power distribution company ...

The commencement of gas sales from Tariki-5A marks the successful completion of the Company's 2024 highest priority project and the ...

The BESS is set to deliver huge benefits to the Waikato by providing an energy storage facility which will improve the resilience of the New Zealand electricity system, while ...

TSXV:NZ | New Zealand Energy Corp is an onshore formerly producing oil and gas company with substantial permitted acreage for new oil and gas production opportunities ...

Ekus Energy is active in Australia, the UK, Italy and Japan. Image: Ekus Energy. Energy storage developer Ekus Energy has entered the New ...

New Zealand is transitioning to a highly renewable electricity system. This change will require increased and accelerated investment in new electricity generation to match ...

The NZ Battery Project was set up in 2020 to explore possible renewable energy storage solutions for when our hydro lakes run low for long periods. A pumped hydro scheme ...

Ekus Energy has acquired a 300 MW battery energy storage project in New Zealand's Waikato region, marking its entry into the country. The project will be co-developed ...

Meridian Energy, a New Zealand state-owned energy company, has completed the development of its

New Zealand energy storage projects

100MW/200MWh 2-hour duration Ruakaka BESS.

Ethical Power specialises in solar and battery energy storage systems, with an extensive track record delivering renewable energy projects in the UK, and a growing ...

June 30, 2025 - Vancouver, British Columbia, Canada - New Zealand Energy Corp. ("NZEC" or the "Company") (TSX-V: NZ) is pleased to provide the following updates on the Copper Moki ...

The country's government is known to be considering the development of large-scale pumped hydro energy storage (PHES) facilities to ...

Construction of New Zealand's first large-scale grid battery storage system is now complete, with Meridian Energy's Ruakaka Battery ...

Beca is transforming energy storage in New Zealand with the Glenbrook BESS project, which will power several thousands of homes and support the energy transition to renewable sources.

Soft lithium-ion technology will provide 100 MW power and 200 MWh storage capacity to support grid stability as intermittent wind and solar power increases in New Zealand

While hydro still rules, New Zealand is starting to take battery storage seriously, especially on the North Island.

The JV has arranged for an equal sharing of the project's offtake, with Meridian purchasing the ...

6-10 month pathway to new gas production Restoration projects planned for low investment, quick pay-back opportunities - including new gas storage solutions

Macquarie's Eku Energy is expanding into New Zealand with the purchase of a battery storage project in the Waikato region.

Meridian Energy has completed construction of New Zealand's first large-scale grid-connected battery energy storage system (BESS) at Ruakaka, with an official opening ...

Meridian Energy will begin construction of its 120MW Ruakaka Solar Farm in Tai Tokerau Northland, New Zealand, in August 2025.

Construction of New Zealand's first large-scale grid battery storage system is now complete, with Meridian Energy's Ruakaka Battery Energy Storage System (BESS) being ...

WEL Networks and Infratec are proud to announce the launch of New Zealand's largest Battery Energy

Storage System (BESS) with commissioning underway. The BESS is ...

The details Location: New Zealand Steel's Glenbrook site in south Auckland Capacity: 100MW (200 MWh)

Energy type: Battery storing electricity ...
