

New solar energy in Vada Laos

Can Laos build a floating solar power project?

In 2020, Laos also signed a Project Development Agreement (PDA) with China's Hangzhou Safefound Technology Company to develop a floating solar power project at Nam Ngum 1, with an installed capacity of up to 1,200 MW on an area of more than 1,500 ha. Once put into operation, it will be the largest floating solar power project in the world.

How many solar power plants are there in Laos?

However, by the end of last year, only eight solar power projects and four biomass power plants were in operation, with an installed generation capacity of 116 MW, representing just 1% of the country's total electricity production. As of early 2023, Laos produced power from 76 hydropower dams, with another 43 still under construction.

Why is solar power important in Laos?

Solar power has improved the livelihoods of local people. For people living off-grid in remote villages in Laos, solar energy offers a clean, sustainable way to bring electricity for all, and the promise to transform their lives.

Will Laos build a solar farm?

The construction of the proposed solar farm will take place in three stages over 10 years. In 2020, Laos also signed a Project Development Agreement (PDA) with China's Hangzhou Safefound Technology Company to develop a floating solar power project at Nam Ngum 1, with an installed capacity of up to 1,200 MW on an area of more than 1,500 ha.

What is the largest floating solar power project in the world?

Once put into operation, it will be the largest floating solar power project in the world. In 2021, French energy giant EDF also planned to build a 240 MW floating solar power plant at the Nam Theun 2 hydropower plant on the Nam Theun river.

How can solar energy help people living off-grid in Laos?

For people living off-grid in remote villages in Laos, solar energy offers a clean, sustainable way to bring electricity for all, and the promise to transform their lives. For people living off-grid in remote villages in Laos, solar energy offers a clean, sustainable way to bring electricity for all, and the promise to transform their lives.
