

Nordic Energy Storage Power Company

What is the largest battery energy storage project in the Nordics?

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics. The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower.

How much storage capacity does Seb Nordic energy have?

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality in Finland's Ostrobothnia region, the project is expected to be completed in 2026.

What does Seb Nordic energy do?

SEB Nordic Energy invests in major battery storage projects. Computer-generated picture of the future battery storage park in Finland. SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics.

What does Nordic batteries do?

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance.

What is a new partnership between Seb Nordic energy & Ingrid capacity?

A new partnership between SEB Nordic Energy, through its portfolio company Locus Energy, and Ingrid Capacity will enable the construction of 13 new large-scale battery energy storage systems across southern Sweden, adding an additional 196 MW of flexible capacity to the national grid. Courtesy of Ingrid Capacity.

Is Northvolt a good energy storage company?

Northvolt, as one of the top 10 energy storage companies in Sweden, founded in 2015 by former Tesla executives, is a Swedish battery manufacturer specializing in lithium-ion technology for electric vehicles and energy storage.

The project, which is one of the largest of its kind in Finland, will provide grid services including frequency response and will be able to participate in energy trading on ...

We believe that new approaches can bring investment optimization, better infrastructure utilization, unlimited scalability, intelligent management, ...

At Nordic Batteries we assemble and manufacture customized battery- and energy storage solutions to drive your business forward. Based on our market and technological expertise we ...
