

What is the largest energy storage investment in the Nordics?

"It is a great honor to inaugurate the largest energy storage investment in the Nordics, with 211 MW now connected to the power grid. "Thanks to the efforts of Ingrid Capacity and BW ESS, we are reducing grid congestion and enabling increased power production."

What is the largest energy storage park in the Nordic region?

Romina Pourmokhtari, Sweden's Minister for Climate and Environment, officially inaugurated the largest energy storage park in the Nordic region. The initiative, led by Ingrid Capacity in collaboration with BW ESS, consists of 14 large-scale energy storage systems with a total capacity of 211 MW/211 MWh.

Is Energi the most forward-looking Renewables Group in the Nordic region?

This acquisition reinforces Energi's ambition to be the most forward-looking renewables group in the Nordic region. Energi is Norway's biggest renewable energy group, with operations throughout the value chain from electricity generation to end users.

Who oversees the connection to the Nordic power grid?

The connection to the grid was overseen at the time by the Swedish minister for climate and the environment, Romina Pourmokhtari. Among her comments at the ceremony, Pourmokhtari said: "It is a great honor to inaugurate the largest energy storage investment in the Nordics, with 211 MW now connected to the power grid."

Why do we need batteries in the Nordic energy system?

The storage systems can store electricity when generation is high and prices are low, and then release it again when demand is high, stabilising prices and enabling renewable energy to be used more efficiently. In addition, batteries will play a critical role in ensuring supply security in the Nordic energy system.

Should Energi expand its energy storage portfolio in Finland?

"Finland is a promising market for energy storage projects, being well set up for ancillary services and with growth forecast in the wholesale electricity market. This makes the country ideal for Energi to expand its energy storage portfolio", says Atle Knudsen.

Swedish solar farms and battery storage developer Helios Nordic Energy has finalised the sale of a 10-MW battery energy storage system ...

The guide is produced by Nordic Energy Research and consulting group COWI. The guide provides how to develop affordable, and reliable, renewable energy projects, using off ...

The following provides information on California energy storage legislation, the CPUC energy storage program and projects evaluation, CPUC energy storage proceedings, ...

OX2 has sold its 50MW/110MWh battery energy storage project in Uusnivala, Finland, to the L& G NTR Clean Power Fund. The project will help regulate grid frequency and stability and ...

Swedish flexible assets developer and optimizer Ingrid Capacity has joined hands with SEB Nordic Energy's portfolio company Locus Energy ...

On 5 September 2025, BOS Power signed a supply agreement with HiTHIUM, a leading global company in energy storage technology, for the delivery of 3 GWh of battery energy storage ...

The guide is produced by Nordic Energy Research and consulting group COWI. The guide provides how to develop affordable, and reliable, ...

Introduction The foundation of a successful battery energy storage system (BESS) project begins with a sound procurement process. This report is intended for electric cooperatives which have ...

Energy storage and flexibility services form an integral part of the Energi's group strategy, including growing the portfolio of energy storage projects. This acquisition reinforces ...

Why the Nordics Are Betting Big on Supercapacitors a wind farm in Norway generates excess energy during a stormy night, but instead of wasting it, the power gets ...

In this Energy Storage News Webinar, CEA's experts Jeff ZwiJack, Associate Director of Energy Storage, and Aaron Marks, take a deep dive into BESS procurement ...

About BOS Power BOS Power is a leading Nordic provider of Energy Storage Systems (ESS), emergency power and marine propulsion solutions. As a turnkey EPC partner, ...

Partner with HST Nordic to deliver reliable, high-performance solar and energy storage solutions. At HST Nordic (559519-9372), we engineer, procure, and construct high-impact renewable ...

5 days ago Hithium will provide BOS Power with technical training and authorise the company as a certified service provider. BOS Power is an engineering, procurement and construction ...

ACKNOWLEDGMENTS This resource is generously supported by U.S. Department of Energy - Office of Electricity, as part of the Energy Storage Technology Advancement Partnership ...

Developer and optimiser Ingrid Capacity and energy storage owner-operator BW ESS have been working in

partnership to deliver 14 large-scale BESS projects throughout ...

Public Service Company of New Mexico is seeking approval of off-take agreements for third-party BESS contracts and a project it will own.

The New York State Public Service Commission (NYPSC) directed New York state utilities to procure 350MW of energy storage projects. ...

Renewable Energy procurement advisor, LevelTen Energy, is reported to have developed a RE-Store Energy Agreement, designed for utility-scale storage projects. The contract means that ...

Neoen has started construction on a 2-hour 56MW/113MWh battery storage project in Finland, the largest in the Nordics.

Construction has begun on Sweden's largest Battery Energy Storage System (BESS) undertaken by Neoen, an Independent Power Producer and Nidec, a system ...

Construction has begun on Sweden's largest Battery Energy ...

Provides federal agencies with a standard set of tasks, questions, and reference points to assist in the early stages of battery energy storage ...

If all of the energy storage-related requests for proposal (RfPs), site applications, and other utility proposals that were active at the end of 2024 ...

Since 2023, Ingrid Capacity and BW ESS have been working together on 14 large-scale energy storage projects strategically located within Sweden's electricity grid in price ...

5. Partner with an Experienced Energy Procurement Consultant If your business lacks in-house expertise, consider working with an energy procurement consultant. These ...
