

Outdoor Power Safety Guide

Is it safe to use electrical equipment outside?

When using electrical equipment or working near power lines outdoors, weather conditions and the presence of utility equipment present safety risks that are not typically found indoors. Therefore, it's important to operate equipment properly and be aware of potential hazards around you.

How do I use a power tool outside?

Follow these guidelines before, during and after operating a power tool outdoors: Read the tool's instructions, especially all safety warnings, before use. Plug the cord into a three-prong outlet on a three-conductor circuit. This provides the added safety of the neutral-to-ground connection provided by the third wire.

How do you maintain a power tool?

Inspect the tool after each use, and keep it in good working order. Replace or repair worn or defective equipment immediately. Keep the tool clean and store it in a dry place. Never use a power tool around flammable liquids such as gasoline or solvents. Keep the work area clean of sawdust, shavings or anything else that could pose a fire hazard.

Can you shoot at a insulator on a utility pole?

Don't shoot at or otherwise damage insulators on utility poles. This is extremely dangerous and against the law. Insulators keep electricity from traveling down the pole. If an insulator is broken off or damaged, anyone coming in contact with the pole could be injured or killed.

What should I do if a power line is down?

If you see a downed power line, always assume it is live and dangerous. Stay at least 30 feet away and immediately call 911 to report it. Customers serviced by underground power lines should be aware of landscaping clearance and other guidelines before digging near our equipment.

Can you plant trees near a power line?

For more information on planting and maintaining trees near power lines, see [How to Select the Right Tree for the Location](#). If you see a downed power line, always assume it is live and dangerous. Stay at least 30 feet away and immediately call 911 to report it.
