What is a solar-powered outdoor outlet?

A solar-powered outdoor outlet is a handy device that helps you keep your outdoor gear charged using the sun's energy. It harnesses solar energy through its built-in solar panel and converts it into usable electricity. This way, you can charge mobile phones, power lights, and even run small appliances without an external power source.

Do solar powered outdoor outlets work?

While solar-powered outdoor outlets are suitable for small appliances, solar generators work best to charge large devices. In this Jackery guide, we will reveal which is a better option to keep your gear powered during an outdoor adventure or power outage.
