

Outdoor power supply for power amplifier

Are outdoor speakers compatible with a stereo receiver/amplifier?

Most outdoor speakers are compatible with any stereo receiver/amplifier. Make sure your receiver is of enough watts to power your outdoor speakers. Majority receivers/amps today have A+B channels. You can easily use the extra channel to drive exterior sound.

What is the best receiver/amplifier for outdoor speakers?

1. Sony STR-DN1080 2. Yamaha R-S202BL 3. KEiD Stereo Receiver 4. Pioneer Elite VSX-LX104 5. Sony STRDH190 6. Onkyo TX-RZ720 7. Pioneer SX-10AE 8. Denon AVR-X4500H What to Look for in a Receiver/Amplifier for Outdoor Speakers?

Do I need a battery powered amp?

There are times, especially when playing outdoor, when there is no AC power available. For those times it would be nice to have a battery powered amp, or a DC to AC converter you can connect to a 12 volt battery. Battery powered amps seem to always have very low wattage output, with small speakers and don't sound very good.

Can I use my receiver/amplifier as a public address system?

When your receiver/amplifier has a Mic Port, you can connect a microphone to the unit at the front or back and use it as a Public Address system via your outdoor speakers. This is a useful feature when holding functions outdoors.

Can a stereo receiver be used outdoors?

Yes, a stereo receiver can be used outdoors as long as it is designed for outdoor use and has the necessary weatherproofing features to withstand outdoor conditions. Do check the specifications and user manual of your stereo receiver and ensure it is suitable for outdoor use.

Does a high-end receiver/amplifier have a LAN port?

Some high-end receiver/amplifier models feature multiple HDMI ports that allow you to connect HDMI-enabled devices physically and, thereby, play HD Audio and Video to the outdoor sound system. A receiver/amplifier unit that features a LAN port allows you to connect your home stereo receiver to an existing computer network.
