What is a solar power inverter in the Philippines?

A solar power inverter in the Philippines not only converts the energy from the sun to usable energy but also serves as a communicating device that tells whether your solar PV system is experiencing problems.

How long does a solar power inverter last in the Philippines?

At Solaric, solar power inverters we've installed throughout the country resulted in drastic monthly electric bill drops, with homeowners noticing up to 50% reduction in their bills. If you purchase a solar power inverter in the Philippines, you can expect to recover from your investment within 6 to 7 years of use.

What size inverter do I need for a 6kW solar cell?

A 4.5kW inverter can also be used for the 6kW solar cell at a lower price than the 6kW inverter. Please note that if you want to maximize the size of the inverter, it will be difficult to add more solar panels in the future without adding a new inverter or installing a larger inverter than the original one.

Does Solaric sell SolarEdge inverters in the Philippines?

Solaric is an authorized distributor of SolarEdge inverters in the Philippines. We also help our clients carry out installation, site planning, and commissioning. We offer a full suite of SolarEdge inverters (single phase and 3 phase) that operate in the following grid types: regular 230V Single (split) phase, 400V Wye, and 230V Delta.

What should you consider when choosing a PV inverter?

Also, consider the safety aspect of PV inverters. String inverters can be a target for theft if placed in exposed areas. Theft is rare but not impossible. Installing behind a fence or a lockable gate is an excellent option. There are inverter models with built-in anti-theft devices.

Can a hybrid inverter connect a solar panel to a battery?

Thus, a single unit will connect the panels and the battery. Lately, hybrid model prices have started dropping, being just as affordable as classic inverters. If you install a solar PV system but have not chosen the battery model, we recommend that you be careful if you want a hybrid inverter.
