What is the supply voltage in Qatar?

In Qatar the supply voltage is 240V. If the appliance is a single voltage rated appliance, it will need to operate at the same voltage as the supply voltage of the country i.e. 240V. If this is not the case it should be used alongside a voltage transformer or converter to allow the appliance to work safely and properly.

What is Qatar's energy plan?

The country aims to meet 20% of its energy demand from renewables and pledged to reduce its GHG emissions by 25% by 2030. QEWC dominates power generation with 75% of the capacity. Qatargas is the only LNG producer. Qatar is the second LNG producer in the world. A solar capacity of 800 MW was commissioned in 2022.
