

Saint Lucia Dimming Outdoor Power Supply

What type of power outlet does Saint Lucia use?

Saint Lucia uses power outlets and plugs of type G. Take a look at the picture below to see what this plug and power socket looks like: Doesn't look familiar? Do the outlets look different in your country? You'll need a power plug adapter.

What type of plug does Saint Lucia use?

The country uses plug type G, which has three rectangular pins in a triangular configuration. This plug type is commonly found in the United Kingdom, Ireland, and other Commonwealth countries. If you're traveling to Saint Lucia with electronics that use a different plug type, you'll need to bring a travel adapter.

What voltage does Saint Lucia use?

Saint Lucia utilizes a standard voltage of 240 volts and a frequency of 50 Hz. The country uses plug type G, which has three rectangular pins in a triangular configuration. This plug type is commonly found in the United Kingdom, Ireland, and other Commonwealth countries.

Can I use a charger in Saint Lucia?

Chargers for iPhones, Android phones and other smartphones or cell phones are usually dual voltage, so you can use them all over the world. However, it is possible you'll need an adapter to plug the charger into a Saint Lucia outlet. Saint Lucia uses electrical outlets and power plugs of type G (see images).

Do North Americans need an adapter in Saint Lucia?

No! North Americans will need an adapter for the outlets and a transformer for the voltage when traveling to Saint Lucia. North American device plugs will not work with the outlet types in Saint Lucia. Also, the voltage in Saint Lucia is different from North American voltages. Can Europeans use Electronics in Saint Lucia without an adapter?

Do I need a voltage converter in Saint Lucia?

The voltage used in Saint Lucia is 240V and the frequency is 50Hz. If this is the same in your own country, you don't need a voltage converter when travelling to Saint Lucia. If the voltage and/or frequency in your country is different, you should check if your devices are dual voltage.

I just installed this power supply -- the 24v 300w version -- to drive a pair of 26 foot LED strips (0.1w per LED, 37 per inch, total nominal wattage just under 200w) in my new outdoor deck.

Dimmable LED Driver 24V 100W, Slim Waterproof Power Supply Outdoor, 240 24V DC LED Transformer, Constant Voltage Adapter for Outdoor and Indoor LED Lighting Strip Lights to ...
