What is xindun power 3 phase hybrid solar inverter off grid?

Off grid means that the inverter can be used when the power grid is not available, and it can be combined with battery pack to form a UPS backup power supply. Xindun Power 3 phase hybrid solar inverter off grid 3kva-200kva, can carry 1-phase and 3-phase loads at the same time, support 100% unbalanced loading.

What is an off grid 3 phase inverter?

The off grid 3 phase inverter means that the voltage that converts DC to AC is three phase power supply, that is, AC 380V. It consists of three AC potentials with the same frequency, equal amplitude, and 120° phase difference, can carry industrial 3 phase electrical appliances.

Are hybrid solar inverters CE approved?

Hybrid solar inverter 3 phase off grid inverter all have CE approved. As the largest off grid inverter manufacturer and exporter in China, Xindun has provided inverter production and overall solution calculations for more than 100 countries and regions around the world for 17 years.

Who is the largest off grid inverter manufacturer & exporter in China?

As the largest off grid inverter manufacturer and exporter in China, Xindun has provided inverter production and overall solution calculations for more than 100 countries and regions around the world for 17 years. The inverter production plant is 10,000 square meters, 8 production lines and about 200 employees.
