

Solar System Home Costs in Nicaragua

How much does solar cost in Nicaragua?

Solar obviously changed our bills, average is around \$10 per month instead of \$150. But even better is we don't notice the power outages anymore. I previously worked with the "best rated" Nicaraguan solar company and the workmanship and professionalism was not even close to Nicamisol's.

How much does solar cost a year?

If solar cuts \$150 off your monthly bill, that's \$1,800 a year. Add another \$200 in credits for power you export, and your annual savings is \$2,000. Payback period is simply the system cost divided by annual savings. Using the numbers above: $\$12,000 \div \$2,000 = 6$ years. That means in six years your system has paid for itself.

How much does solar cost per kilowatt-hour?

The best way to measure such costs is called the levelized cost of electricity, which is essentially the lifetime cost per unit of electricity generated. The global weighted average LCOE stabilized at \$0.043 per kilowatt-hour for utility-scale solar PV. This made solar 41% cheaper than the least-cost fossil fuel option.

Why should I buy a solar system?

It makes your house an overall sound asset that increases in value over time. You won't have to worry about outages. You'll pay less per kW per month. We monitor your system in real time and are able to respond quickly. Solar obviously changed our bills, average is around \$10 per month instead of \$150.
