

Is Tajikistan boosting imports of electric vehicles?

Tajikistan is boosting imports of electric vehicles and planning domestic production together with Chinese partners, the Tajik Transport Ministry said. "According to the government's Customs Service, Tajikistan imported 3,316 electric vehicles worth \$59 million in 2023.

How many electric vehicles did Tajikistan import in 2023?

"According to the government's Customs Service, Tajikistan imported 3,316 electric vehicles worth \$59 million in 2023. As many as 5,266 electric vehicles worth \$76.4 million were exported in the first half of this year, which is 26.7% of the total number of imported vehicles (over 19,700)," the ministry said.

Should CIS members use electric vehicles in Tajikistan?

"Tajikistan is one of CIS members generating eco-friendly, cheap electricity. Therefore, using electric vehicles in this country is relevant and effective from every angle, especially at a time when fuel prices are rising," the press release quoted Transport Minister Azim Ibrohim as saying.
