

How can Telenor achieve net-zero energy consumption?

This can be achieved through two main strategies: Energy Efficiency: Limiting the growth of energy consumption. Renewable Energy: Phasing in renewable energy sources. To meet our net-zero target, all of Telenor's energy consumption must eventually come from renewable sources.

What is Telenor corporate portal?

"Telenor Corporate Portal" is developed considering emerging customer needs. The portal serves as a one-stop self-service platform which enables existing customers to manage their accounts and after sales service requests; thereby providing them with convenience and reducing lead times.
