

Thailand's first energy storage project

Can BESS create business opportunities in Thailand?

Watcharin Boonyarit, director of solar energy development at the Department of Alternative Energy Development and Efficiency, noted the potential for BESS to create business opportunities as Thailand transitions to renewable power sources. "We should not only import BESS but also consider new investment projects in this battery business."

Could rock salt be a new business opportunity for Thailand?

SIBs, made from rock salt, could offer a new business opportunity given Thailand's abundant rock salt reserves. Veeradej Tejapaibul, the vice-chairman of the club, suggested that government support for rock salt exploration could attract investment in SIB manufacturing.

Could a sodium-ion battery be a new business opportunity in Thailand?

The Federation of Thai Industries' Renewable Energy Industry Club sees potential in sodium-ion battery (SIB) production as an alternative to lithium-ion batteries. SIBs, made from rock salt, could offer a new business opportunity given Thailand's abundant rock salt reserves.

What is Thailand's 2024 Power Development Plan?

Thailand's 2024 power development plan (PDP) aims to increase renewable energy use, highlighting the importance of BESS alongside solar panels and wind turbines. This could create new business opportunities for entrepreneurs if prices decrease or new technologies emerge for stationary batteries.

There are currently few grid-scale energy storage projects in Thailand, although the situation is likely to change. In furtherance of its commitments under the Paris Agreement, ...

4 days ago September 08, 2025 [PTTEP]- PTTEP has reached the final investment decision (FID) on Carbon Capture and Storage Project (CCS) at the Arthit gas field. This milestone ...

4 days ago Thailand's national upstream company PTTEP has taken the final investment decision on the carbon capture and storage (CCS) project at its producing Arthit gas field in ...

Bangkok, June 6, 2022 - PTTEP is gearing up to develop Thailand's first Carbon Capture and Storage (CCS) project at Arthit offshore gas field, paving the way ...

In Q1/2021, GGGI conducted teleconference consultation with the management team of three largest Thailand based biogas EPCs and project developers, leading bioeconomy research ...

Submissions for Thailand's first 300MW hybrid PPA scheme, which encourages use of energy storage to supplement renewable energy generation, are due by 20 October.

Thailand's first energy storage project

Green Energy's Secret Sauce: When Sun and Water Hold Hands Solar farms love sunny days, but what about monsoon season? Enter the Bangkok hydropower energy storage ...

Thailand's 2024 plan increases renewable energy, highlighting crucial battery storage systems for buildings and power generation.

In 2020, The Southern Thailand Wind Power and Battery Energy Storage Project utilized wind power generation to store the excess power in a battery energy storage system. ...

Bangkok, 8 September 2025 - PTTEP has reached the final investment decision (FID) on Carbon Capture and Storage Project (CCS) at the Arthit gas field. This milestone marks Thailand's first ...

5 days ago; The Electricity Generating Authority of Thailand (Egat) plans to convert three hydropower dams into massive energy storage systems with a 90-billion-baht investment. This ...

3 days ago; PTTEP, Thailand's national exploration and production company, has approved its final investment decision to build the country's first carbon capture and storage (CCS) project ...

3 days ago; PTT Exploration and Production Plc (PTTEP) has given the green light to the development of Thailand's first carbon capture and storage (CCS) project at its Arthit gas field ...

Energy storage is in its infancy in Thailand, and new business models are already emerging. As the regulatory framework adapts to accommodate new players in the market, it ...

3 days ago; Thailand exploration and production company PTTEP has reached final investment decision on Thailand's first carbon capture and storage (CCS) project, at the Arthit gas field.

The project will be the first private sector project in Thailand to integrate utility-scale wind power generation with battery energy storage and will have an important demonstration effect.

5 days ago; The Electricity Generating Authority of Thailand (Egat) plans to convert three hydropower dams into massive energy storage systems with a ...

Encore Renewable Energy has energized South Street Storage, a 2MW, 8MWh utility scale battery energy storage system, located next to the South Street Solar project in ...

4 days ago; How significant is PTTEP's final investment decision on the Arthit CCS project for Thailand's Net Zero strategy and regional energy transition? PTT Exploration and Production ...

This tropical paradise isn't just about pad thai and full moon parties anymore - it's becoming Southeast Asia's

Thailand s first energy storage project

new energy storage powerhouse. With renewable energy ...

3 days ago PTTEP finalizes its investment decision on the Carbon Capture and Storage project at the Arthit gas field in the Gulf of Thailand.

The Asian Development Bank (ADB) and the Gulf Renewable Energy Company, a subsidiary of Gulf Energy Development Public Company, have finalised an \$820m loan ...

Project stakeholders attend a blessing event to mark the start of construction in August 2022. Image: WEL Networks. Electric power ...

Carbon Capture and Storage (CCS) is one of PTTEP's strategic pathways for the energy transition movement to become a low-carbon organization with sustainable growth and ...

Jupiter Power has announced the commencement of commercial operations for its 400 megawatt hours (MWh) dispatchable power facility in Houston, Texas. The Callisto I ...
