What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Oupes. ? Jump to the Rest of the Field ? What to Know Before Purchasing a Portable Power Station

What are the best portable power stations for camping?

A California based company founded in 2012, Jackery was one of the first portable powers stations designed for camping. Each of their portable power stations has a built in handle for easy carrying, and they introduced lightweight solar panels that pair perfectly for easy charging on the road.

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

What is the best portable power station for emergency backup power?

Best Portable Power Station for Emergency Backup Power: Bluetti AC200Max with B300 expansion batteries. The AC200Max can put out 2200 Watts, which is enough to power most small household appliances, but it's still portable enough to be moved by a single person (62 lbs).

Should you buy a power brick or a portable power station?

Small power bricks have enough juice to charge your phone a few times, while a cooler-sized portable power station can keep vital electronics running during a power outage or camping trip, and the most powerful options will provide electricity to your entire house.

Which battery is best for a portable power station?

These days most portable power stations, including all those we recommend here, use LiFePO4 batteries, which are capable of holding far more cycles, which is the number of times a battery goes through a complete discharge and recharge, than older lithium-ion batteries while also being less likely to combust.
