

Uganda household energy storage power supply price

How much does electricity cost in Uganda?

The price of electricity for households in Uganda is 0.170 U.S. Dollar per kWh, and for businesses it is 0.124 U.S. Dollar per kWh (as of March 2023), which includes all components of the electricity bill such as the cost of power, distribution, and taxes.

What is Uganda's Electricity capacity?

As of February 2015 and according to the Uganda Electricity Regulatory Authority, Uganda's installed electricity capacity was 810 megawatts, with peak demand of 509.4 megawatts so that "the incidence of load shedding due to shortage in supply is now close to zero."

Does Uganda have a good electricity supply?

Electricity access in Uganda is much lower than Kenya and almost less than half the Sub-Saharan African (SSA) average. Only 28% of Ugandans have access to electricity, with significant variations between urban, peri-urban, and rural areas. In rural areas, the access rate does not exceed 10%.
