

# United Arab Emirates Smart Energy Storage Construction Project

Can battery energy storage system (BESS) technology be used in the UAE?

Trowers & Hamlins lawyer Shaun Hardiman discusses the potential of battery energy storage system (BESS) technology in the United Arab Emirates (UAE) and its ongoing and growing impact on the energy sector.

What is a Bess project in the UAE?

The UAE is focusing on renewable energy production, for example in its solar PV IPPs, across the Emirates. BESS projects have the potential to tie neatly into solar energy projects. For example, BESS projects can help to conserve energy generated during the day which can be used during 'down periods' at night.

What is thermal energy storage battery storage project?

The thermal energy storage battery storage project uses molten salt thermal storage storage technology. The project was announced in 2018 and will be commissioned in 2030. The project is owned by Shanghai Electric Group; Acwa Power and developed by Abengoa. 2. Mohammed Bin Rashid Al Maktoum Solar Thermal Power Plant - Thermal Energy Storage System
